

# Phase 1 State Machines

The eight lifecycles from Blueprint v2.0 §21 — developers build directly from these.

|                 |                                                                                      |

| # | ENTITY              | PRISMA ENUM      | §21 STATES                                                                                      |
|---|---------------------|------------------|-------------------------------------------------------------------------------------------------|
| 1 | Athlete Application | AthleteState     | DRAFT → SUBMITTED → UNDER_REVIEW → APPROVED / CHANGES_REQUESTED / REJECTED → ACTIVE / SUSPENDED |
| 2 | Campaign Brief      | BriefState       | DRAFT → QUALIFIED → APPROVED → CAMPAIGN_CREATED → CLOSED                                        |
| 3 | Athlete Invitation  | InviteState      | INVITED → VIEWED → ACCEPTED / DECLINED / EXPIRED                                                |
| 4 | Campaign Order      | OrderState       | DRAFT → SENT → ACCEPTED / REJECTED → ACTIVE → COMPLETED / CANCELLED                             |
| 5 | Deliverable         | DeliverableState | NOT_STARTED → DRAFT_SUBMITTED → BTG_REVIEW → SPONSOR_REVIEW → APPROVED → PUBLISHED → VERIFIED   |
| 6 | Campaign            | CampaignState    | DRAFT → STAFFING → APPROVAL → ACTIVE → REPORTING → COMPLETED / CANCELLED                        |
| 7 | Earnings            | EarningState     | PENDING → ELIGIBLE → APPROVED_FOR_PAYOUT → PAID / HELD / DISPUTED                               |
| 8 | Reward              | RewardState      | DRAFT → ACTIVE → PAUSED → EXPIRED / ARCHIVED                                                    |

Transitions marked “(derived)” are not stated in §21. §21 gives the forward path only. Where a state would otherwise be a dead end — a review that requests changes, a hold that is resolved, a pause that is lifted — the return arrow is drawn and labelled *derived*. These are proposals for P2-BE-02 to confirm when the enums and guards are written, not established requirements. Every unlabelled arrow is taken verbatim from §21.

# Athlete Application

Prisma enum · AthleteState

§21: DRAFT → SUBMITTED → UNDER\_REVIEW → APPROVED / CHANGES\_REQUESTED / REJECTED → ACTIVE / SUSPENDED  
Named explicitly in §38. Built in B1 · athlete onboarding.

§21: DRAFT → QUALIFIED → APPROVED → CAMPAIGN\_CREATED → CLOSED

Qualification and approval are BTG staff actions — Phase 1 is managed.

# Athlete Invitation

Prisma enum · InviteState

§21: INVITED → VIEWED → ACCEPTED / DECLINED / EXPIRED

Expiry is a worker sweep of expiresAt, not a check on read.

Prisma enum · OrderState

§21: DRAFT → SENT → ACCEPTED / REJECTED → ACTIVE → COMPLETED / CANCELLED

Named explicitly in §38. The commercial record, one per athlete.

# Deliverable

Prisma enum · DeliverableState

§21: NOT\_STARTED → DRAFT\_SUBMITTED → BTG\_REVIEW → SPONSOR\_REVIEW → APPROVED → PUBLISHED → VERIFIED

Two review stages: BTG content approval, then the sponsor.

# Campaign

Prisma enum · CampaignState

§21: DRAFT → STAFFING → APPROVAL → ACTIVE → REPORTING → COMPLETED / CANCELLED  
REPORTING is a working state — the report earns the renewal.

# Earnings

Prisma enum · EarningState

§21: PENDING → ELIGIBLE → APPROVED\_FOR\_PAYOUT → PAID / HELD / DISPUTED

These six states are P7-BE-01's acceptance and match Payment Policy G-01 §2.

# Reward

Prisma enum · RewardState

§21: DRAFT → ACTIVE → PAUSED → EXPIRED / ARCHIVED

Gates the public fan page. Token events are a separate audit trail.
